

NGUYEN THANH DAT

DATA ANALYST

Chanh Phu Hoa Ward, Ho Chi Minh City

(+84) 866 010 744 | datnguyen03.ba@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

SUMMARY

Business Analytics graduate with hands-on experience in **SQL, Power BI, Python, and Excel** for data analysis and business process improvement. Familiar with common supply chain concepts, including **demand planning, inventory management, and operational analytics** through academic coursework. Passionate about applying data-driven solutions and automation tools to optimize business operations and grow within supply chain analytics.

EDUCATION

Eastern International University (EIU)

Mar 2026

Bachelor of Business Administration - Business Analytics

- Honors Program
- Dean's List Scholarship, GPA 3.65/4.0
- Singapore Field Trip 2025 (100% Scholarship)

TECHNICAL TOOLS AND INTERESTED DOMAIN

Technical Tools:

- Power BI (*Data Processing, Data Modeling, and DAX Writing*)
- Excel (*Formulas, Pivot Table, and Power Query*)
- SQL (*Aggerations, CTEs, and Window Function*)
- Python (*Pandas, NumPy, Matplotlib, and Scikit-learn*)

Domain Knowledge (Fundamental Level):

- Inventory Management
- Demand Planning
- KPI Tracking & Reporting
- Supply Chain Concepts

LANGUAGES

- **English:** IELTS Band 6.5
- **Japanese:** Basic

AWARDS

- **EIU Data Challenge:** Runner-up Team
- **BBS Case Competition:** The Best Poster

WORKING EXPERIENCE

Industry 4.0 Innovation Center (IIC 4.0)

Jul 2025 - Sep 2025

Business Analyst Intern • Team Leader

- Researched and compiled international KPI standards for electricity consumption monitoring and optimization in sustainable buildings
- Recommended relevant data collection requirements to support anomaly detection and identify classrooms exceeding acceptable electricity usage thresholds
- Processed and transformed operational datasets, then developed an interactive Power BI dashboard to improve monitoring visibility and decision-making
- Collaborated with cross-functional team members to standardize HVAC operational procedures under the Sustainable Building Management System (SBMS)
- Established incident response protocols defining departmental responsibilities during system malfunctions to improve operational efficiency and issue resolution

PROJECT PORTFOLIO

Eastern International University - Strategic Business Analytics

Feb 2026

Capstone Group Project - FoodCity (Business Partner) - Team Leader

- Collaborated with stakeholders to define project scope and identify operational pain points within a 10-week consulting project
- Structured business problems into analytical tasks, coordinated team execution, and tracked project milestones
- Integrated multiple operational datasets and developed key performance metrics for business evaluation
- Built an interactive Power BI dashboard to analyze business performance, operational limitations, and customer behavior
- Analyzed customer survey and operational data to propose 3 strategic recommendations, contributing to a projected 10% profit margin increase and improved customer traffic

Eastern International University - Business Data Management

Aug 2025

Final Group Project - Data Bank (#8weeksqlchallenge) - PostgreSQL

- Developed and executed advanced queries to answer 13 analytical questions in Customer Nodes Exploration, Customer Transactions, and Data Allocation Challenge
- Implemented Common Table Expressions and Window Functions to enhance query capability and accuracy
- Optimized data processing efficiency and streamlined analysis workflow through structured query design
